# WINELIST 2023-2024

Food and wine have been best friends since the beginning of time. Good food is always a pleasure, but a good meal paired with the right wine is an experience, something to remember, something to crave.

After months of study and tasting, we are proud to present a new list, based on wines that seamlessly complement Chef's Asian inspired creations, offering a complete, out of the ordinary, culinary experience. We have selected wines that reflect the agony of the producer, the struggle of the vine, the uniqueness of each vintage, the characteristics of the terroirs of the world and all the stories that result in a beautiful glass of wine. After all, a good wine is a wine that has its own story to tell.

Respecting the viniculture traditions, but also with our sights focused on the future, this new menu is an amalgamation of all time classic wines and iconic producers, contemporary expressions of winemaking and under the radar quality grapes and appellations. We have also emphasised in sustainable viticulture, organic and biodynamic winemaking and natural wines.

A variety of options by the glass is also introduced, using Coravin and by the glass dispensing systems in order to preserve the freshness and quality of the wines. This encourages more pairings in the context of our food sharing concept and of course provides more opportunities to try new wines.

*Enjoy your wine journey.*
